New Orleans is a unique melting pot of cultures, cuisine, rhythms and art. The Alley-Gators bring that authentic, deep New Orleans vibe straight to the Florida Space Coast - while Don's solo work seamlessly pivots to sun-soaked Trop Rock and classic beach favorites perfect for the deck.

About The Artist

Louisiana Roots. Authentic New Orleans Grooves & Coastal Favorites.

Louisiana born-and-raised singer, songwriter, and multi-instrumentalist **Don Alexander** brings an authentic Southern sound to the stage. Performing either as a solo artist or with his trio, **The Alley-Gators**, Don draws on years of professional experience entertaining audiences from cruise ships, dance halls, and piano bars to concert stages.

The Solo Performance: Boundless Versatility

His solo sets are built on versatility. Don easily transitions from a relaxed, sun-soaked Trop Rock vibe—featuring a deep 45+ song Jimmy Buffett catalog, alongside favorites from Bob Marley and Jimmy Cliff—to lively classic rock, pop staples, and audience requests.

The Alley-Gators: Classic French Quarter Rhythm

When performing as a trio, **The Alley-Gators** focus largely on the classic rhythm and blues style you would expect to find in a traditional French Quarter club. The trio specializes in the piano-driven hits of legendary New Orleans artists like Fats Domino, Dr. John, The Neville Brothers, Professor Longhair, Louis Prima, and Huey 'Piano' Smith.

“These songs are meant to do something: tell a story, transmit an emotion, make something happen. That’s my calling.”

— *Don Alexander*

Rather than simply playing through a list of tunes, Don’s focus is entirely on connecting with the room and making the audience part of the experience.
